Sab Fields Kyun Zaroori Hain?

- **Mukammal insaan banana:** Sirf doctor ya engineer nahi – khush, samajhdar aur balanced insaan banana hai. Iske liye arts bhi chahiye, science bhi, aur akhlaq bhi.
- **Galat choice se bachao:** Agar ek bachche ne sirf science padhi aur baad mein painting mein interest niklaa to late ho jaata hai. Sab fields se milwao, phir woh khud decide kare.
- **21wi sadi ka taqaza:** Aaj ke daur mein ek software engineer ko communication skills chahiye, ek doctor ko empathy (psychology), aur ek businessman ko environment ka gyan. Sab kuch connected hai.
- **Talent pehchanna:** Bohot se bachche apna asli talent isliye nahi jaante kyunki unhe kabhi us field se milwaya hi nahi gaya. Har field explore karna talent discovery ka zariya hai.

Career Khud Chunne Ka Tareeqa

Class 10 ke baad bachcha tayaar hota hai apna raasta chunne ke liye. Yeh decision sahih ho iske liye kuch zaruri sawal aur tareeqa:

Dil sunno: Koi bhi cheez jo karte waqt waqt ka pata nahi chalta – woh tumhara passion hai. Usse pakdo.

Apni skills dekh: Math mein acha ho? Science achi lagti hai? Art mein jeet milti hai? In cheezon par gaur karo.

Careers explore karo: Sirf doctor/engineer mat socho. Aaj 1000+ careers hain. Research karo, log se baat karo.

Shadowing karo: Kisi professional ke saath ek din bitao aur dekho ke unka kaam kaisa hota hai.

Parents aur teachers se mashwara karo: Dono ki sunno – lekin faisla tumhara hoga. Woh guide karein, force nahi.

Galat choice ka darr hatao: 11-12 mein jo choose kiya, woh final nahi. Duniya mein career switch karna possible aur normal hai.
