

THE COMPLETE PHILOSOPHY ROADMAP

Kyun? Poochne ki Kala -- Shuruaat se Oxford DPhil / Harvard PhD tak

Logic . Epistemology . Metaphysics . Ethics . Political Philosophy . Aesthetics . Philosophy of Mind . Philosophy of Science

Yeh PDF Philosophy ka **mukammal ordered roadmap** hai. Philosophy ka matlab hai '**wisdom ka pyar**' -- yani samajhna: kya sach hai? kya sahi hai? hum kuch jaante kaise hain? zindagi ka matlab kya hai? insaaf kya hai? dimag kya hai? Yeh sawaal sirf philosophers nahi -- doctors, scientists, lawyers, politicians, aur aam log bhi poochte hain. Oxford aur Cambridge mein Philosophy sabse competitive undergraduate subjects mein se hai. Is roadmap mein **Socrates se Derrida tak**, Logic se Consciousness tak, Ethics se Aesthetics tak -- sab kuch ordered sequence mein hai.

LEVEL	STAGE	FOCUS
Level 1	Age 4-8	Wondering, questioning, fairness, right/wrong -- no jargon
Level 2	Age 8-12	Big questions, logic puzzles, famous thinkers, ethics basics
Level 3	Age 12-15	Introduction to formal philosophy: logic, epistemology, ethics
Level 4	Age 15-18	A-Level/IB: history of philosophy, main branches, arguments
Level 5	Age 18-21	Undergraduate: core texts, formal logic, all major branches
Level 6	Age 21-23	Graduate/MA: advanced theory, specialisation, research methods
Level 7	Age 23+	PhD: original research -- Oxford, Cambridge, Harvard, NYU level

1.1 Big Questions Children Ask

- 1.1.1 Why does anything exist? -- the most basic metaphysical question
- 1.1.2 What happens when we die?
- 1.1.3 Is it ever okay to lie? -- first ethical thinking
- 1.1.4 What makes something fair?
- 1.1.5 Do animals have feelings?
- 1.1.6 What is a dream -- is it real?
- 1.1.7 If I look different tomorrow, am I still me?
- 1.1.8 Can you think without words?
- 1.1.9 What is a friend? What makes someone good?
- 1.1.10 Where did the universe come from?

1.2 Fairness and Rules

- 1.2.1 Fair and unfair: recognising and discussing
- 1.2.2 Why do we have rules?
- 1.2.3 When is a rule a bad rule? Can we change it?
- 1.2.4 The difference between a rule and being kind
- 1.2.5 Taking turns and sharing -- why does it matter?
- 1.2.6 Promises: why should we keep them?
- 1.2.7 Is it wrong to hurt someone's feelings even if they don't find out?

1.3 Thinking About Thinking

- 1.3.1 How do we know something is true?
- 1.3.2 Difference between guessing and knowing
- 1.3.3 What does it mean to change your mind?
- 1.3.4 Can two people see the same thing differently?
- 1.3.5 Imagination vs reality
- 1.3.6 Why do we ask 'why'? -- the philosophical disposition

1.4 Logic for Children

- 1.4.1 If... then... thinking
- 1.4.2 Sorting: what belongs in this group and why?
- 1.4.3 Finding what's wrong with an argument
- 1.4.4 Riddles and puzzles as logical thinking
- 1.4.5 Giving reasons for opinions

** P4C (Philosophy for Children) -- Lipman's method. Ask open questions at dinner. Never shut down a 'why' question.*

2.1 Introduction to Philosophical Questions

- 2.1.1 What is philosophy? -- love of wisdom
- 2.1.2 Main branches: epistemology, metaphysics, ethics, logic
- 2.1.3 Philosophy vs science vs religion -- how they differ
- 2.1.4 Thought experiments: imaginary scenarios to test ideas
- 2.1.5 The Trolley Problem -- save 5 by pulling a lever vs pushing someone
- 2.1.6 Plato's Cave -- what if we only see shadows?
- 2.1.7 The Ship of Theseus -- if all parts are replaced, is it the same ship?
- 2.1.8 Brain in a vat -- how do we know reality is real?
- 2.1.9 Mary's Room -- can you know colour without seeing it?
- 2.1.10 Zeno's paradoxes -- can Achilles catch the tortoise?

2.2 Famous Philosophers -- Introduction

- 2.2.1 Socrates: asking questions, 'I know that I know nothing', hemlock
- 2.2.2 Plato: Theory of Forms, ideal world, philosopher-kings
- 2.2.3 Aristotle: categorising everything, virtue, the golden mean
- 2.2.4 Confucius: virtue, relationships, social harmony
- 2.2.5 Buddha: suffering, the middle way, impermanence
- 2.2.6 Rumi: love, unity, the inner journey
- 2.2.7 Al-Ghazali: reason and faith, Incoherence of Philosophers
- 2.2.8 Ibn Rushd (Averroes): reason and philosophy in Islam
- 2.2.9 Descartes: 'I think therefore I am', doubting everything
- 2.2.10 Simone de Beauvoir and Mary Wollstonecraft: philosophy and gender

2.3 Ethics for Young People

- 2.3.1 What does 'right' and 'wrong' mean?
- 2.3.2 Is lying always wrong? Discuss cases
- 2.3.3 The Golden Rule: treat others as you want to be treated
- 2.3.4 Consequences matter: will this hurt someone?
- 2.3.5 Intentions matter: did you mean to do harm?
- 2.3.6 Courage and cowardice
- 2.3.7 Honesty, loyalty, kindness -- which matters most?
- 2.3.8 Animal rights: should we treat animals differently from humans?
- 2.3.9 Environmental ethics: do we owe anything to nature?
- 2.3.10 Justice: is equal treatment always fair?

2.4 Basic Logic

- 2.4.1 Arguments: premises and conclusions
- 2.4.2 Valid vs invalid arguments
- 2.4.3 Sound arguments: valid AND true premises
- 2.4.4 Common fallacies: circular argument, ad hominem, straw man
- 2.4.5 Deductive reasoning: all A are B, X is A, so X is B
- 2.4.6 Inductive reasoning: from specific cases to general rule
- 2.4.7 Abductive reasoning: best explanation
- 2.4.8 Counterexamples: how to disprove a general claim
- 2.4.9 Venn diagrams for logical relationships

2.5 Philosophy of Mind -- Introduction

- 2.5.1 What is the mind? Is it the brain?
- 2.5.2 Mind-body problem: how does thinking cause movement?
- 2.5.3 Consciousness: what is it like to be you?

2.5.4 Do animals think? Do they have feelings?

2.5.5 Can machines think? -- the Turing Test

2.5.6 Dreams and reality

2.5.7 Personal identity: what makes you the same person over time?

2.5.8 Free will: do you really choose what you do?

** 'Sophie's World' by Jostein Gaarder -- best novel introduction to philosophy for this age. Highly recommended.*

3.1 Logic -- Formal Introduction

- 3.1.1 Propositions: statements that are true or false
- 3.1.2 Logical connectives: negation, conjunction, disjunction, implication, biconditional
- 3.1.3 Truth tables for all connectives
- 3.1.4 Tautology, contradiction, contingency
- 3.1.5 Logical equivalence: De Morgan's laws
- 3.1.6 Valid argument forms: modus ponens, modus tollens
- 3.1.7 Valid forms: hypothetical syllogism, disjunctive syllogism
- 3.1.8 Invalid forms: affirming the consequent, denying the antecedent
- 3.1.9 Categorical syllogisms: All A are B, Some A are C
- 3.1.10 Testing validity with Venn diagrams
- 3.1.11 Informal fallacies: full catalogue
 - Ad hominem, tu quoque, straw man, false dichotomy, slippery slope
 - Appeal to authority, appeal to emotion, hasty generalisation, post hoc
 - Begging the question, equivocation, composition/division
- 3.1.12 Paradoxes: Liar paradox, Sorites paradox
- 3.1.13 Induction problem: Hume -- can the future resemble the past?
- 3.1.14 Abduction: inference to the best explanation

3.2 Epistemology -- Theory of Knowledge

- 3.2.1 What is knowledge? Three conditions: justified true belief (JTB)
- 3.2.2 Gettier problems: JTB is not enough
- 3.2.3 Sources of knowledge: perception, reason, testimony, memory, introspection
- 3.2.4 Rationalism: reason is the primary source -- Descartes, Leibniz, Spinoza
- 3.2.5 Empiricism: experience is the primary source -- Locke, Hume, Berkeley
- 3.2.6 Scepticism: can we know anything? Descartes' method of doubt
- 3.2.7 Response to scepticism: Descartes' cogito, Kant's transcendental
- 3.2.8 A priori vs a posteriori knowledge
- 3.2.9 Analytic vs synthetic statements
- 3.2.10 Kant: synthetic a priori knowledge
- 3.2.11 Reliabilism: knowledge as reliably produced true belief
- 3.2.12 Foundationalism: some beliefs are basic, others built on them
- 3.2.13 Coherentism: beliefs form a coherent web
- 3.2.14 Social epistemology: role of testimony, authority
- 3.2.15 Feminist epistemology: standpoint theory

3.3 Metaphysics -- The Nature of Reality

- 3.3.1 What is metaphysics? Questions beyond physics
- 3.3.2 Substance: what is the fundamental stuff of reality?
- 3.3.3 Monism: everything is one substance (Spinoza)
- 3.3.4 Dualism: two substances -- mind and matter (Descartes)
- 3.3.5 Physicalism/Materialism: everything is physical
- 3.3.6 Idealism: everything is mental (Berkeley: esse est percipi)
- 3.3.7 Plato's Theory of Forms: universals vs particulars
- 3.3.8 Universals: realism, nominalism, conceptualism
- 3.3.9 Causation: what is a cause? Hume's regularity theory
- 3.3.10 Necessity and possibility: modal concepts
- 3.3.11 Possible worlds (Leibniz)
- 3.3.12 Time: A-theory vs B-theory, McTaggart
- 3.3.13 Space: absolute (Newton) vs relational (Leibniz)
- 3.3.14 Personal identity: psychological continuity, Locke, Hume, Parfit

- 3.3.15 Free will: libertarianism, hard determinism, compatibilism
- 3.3.16 God: ontological, cosmological, teleological arguments
- 3.3.17 Problem of evil: why does evil exist if God is good?

3.4 Ethics -- Normative Theory

- 3.4.1 Normative ethics: how should we act?
- 3.4.2 Metaethics: what are moral claims about?
- 3.4.3 Consequentialism: judge actions by outcomes
- 3.4.4 Utilitarianism: greatest happiness for the greatest number
- 3.4.5 Bentham: hedonic calculus, act utilitarianism
- 3.4.6 Mill: quality of pleasures, rule utilitarianism
- 3.4.7 Singer: preference utilitarianism, effective altruism
- 3.4.8 Deontology: duties regardless of consequences
- 3.4.9 Kant: Categorical Imperative -- universalisability formula
- 3.4.10 Kant: humanity formula -- treat persons as ends, never merely as means
- 3.4.11 Ross: prima facie duties -- non-absolute moral rules
- 3.4.12 Virtue ethics: character over rules or consequences
- 3.4.13 Aristotle: eudaimonia (flourishing), virtues, the golden mean
- 3.4.14 MacIntyre: revival of virtue ethics, After Virtue
- 3.4.15 Natural Law theory: Aquinas, moral law from human nature
- 3.4.16 Divine Command Theory: right = what God commands
- 3.4.17 Euthyphro dilemma: is it good because God commands it, or vice versa?
- 3.4.18 Social Contract: Hobbes (fear), Locke (rights), Rousseau (general will)
- 3.4.19 Contractarianism vs contractualism: Rawls, Scanlon

3.5 Philosophy of Religion

- 3.5.1 Ontological argument: Anselm, Descartes, Plantinga
- 3.5.2 Cosmological argument: Kalam, Aquinas' Five Ways
- 3.5.3 Teleological argument: Paley's watchmaker, Hume's critique
- 3.5.4 Fine-tuning argument
- 3.5.5 Problem of evil: logical and evidential
- 3.5.6 Theodicy: Irenaeus, Swinburne, Plantinga's free will defence
- 3.5.7 Faith and reason: Aquinas, Kierkegaard, Plantinga
- 3.5.8 Religious experience: James, Swinburne, Alston
- 3.5.9 Miracles: Hume's critique
- 3.5.10 Atheism, agnosticism, theism, deism
- 3.5.11 Philosophy of religion in Islam: Kalam tradition, Al-Ghazali, Ibn Rushd
- 3.5.12 Death and afterlife: arguments for and against

** Plato's 'The Allegory of the Cave' and 'Meno' -- read these originals. Short, accessible, and profound.*

4.1 History of Philosophy -- Ancient

- 4.1.1 Pre-Socratics: Thales (water), Anaximander, Heraclitus (flux, logos), Parmenides (being), Empedocles (four elements), Democritus (atoms)
- 4.1.2 Pythagoras: numbers as reality
- 4.1.3 The Sophists: Protagoras ('man is the measure'), relativism
- 4.1.4 Socrates: Socratic method, irony, piety, knowledge as virtue
- 4.1.5 Plato: Forms, epistemology, political philosophy, the soul
- 4.1.6 Plato: Republic -- justice, ideal state, philosopher-kings
- 4.1.7 Plato: Meno, Phaedo, Symposium, Parmenides
- 4.1.8 Aristotle: logic, categories, substance, potentiality/actuality
- 4.1.9 Aristotle: Nicomachean Ethics -- virtue, friendship, happiness
- 4.1.10 Aristotle: Politics -- polis, natural sociality, constitutions
- 4.1.11 Epicurus: pleasure, ataraxia, atomic materialism
- 4.1.12 Stoicism: Zeno, Epictetus, Marcus Aurelius -- virtue, reason, fate
- 4.1.13 Scepticism: Pyrrho, suspension of judgement (epoche)
- 4.1.14 Neoplatonism: Plotinus -- The One, emanation

4.2 History of Philosophy -- Medieval and Islamic

- 4.2.1 Augustine: faith and reason, original sin, just war theory
- 4.2.2 Boethius: consolation of philosophy, problem of evil
- 4.2.3 Anselm: ontological argument, faith seeking understanding
- 4.2.4 Al-Kindi: first Islamic philosopher, reason and revelation
- 4.2.5 Al-Farabi: political philosophy, ideal city, Plato's influence
- 4.2.6 Ibn Sina (Avicenna): Flying Man argument, soul, essence/existence
- 4.2.7 Al-Ghazali: Incoherence of Philosophers, occasionalism, mysticism
- 4.2.8 Ibn Rushd (Averroes): Incoherence of the Incoherence, double truth
- 4.2.9 Maimonides: negative theology, Jewish philosophy
- 4.2.10 Aquinas: Five Ways, faith and reason synthesis, natural law
- 4.2.11 Duns Scotus: haecceity (thisness), voluntarism
- 4.2.12 William of Ockham: Ockham's razor, nominalism
- 4.2.13 Ibn Khaldun: philosophy of history, asabiyyah (social solidarity)

4.3 History of Philosophy -- Early Modern

- 4.3.1 Machiavelli: politics without morality, The Prince
- 4.3.2 Francis Bacon: scientific method, idols of the mind
- 4.3.3 Descartes: method of doubt, cogito, dualism, God's existence
- 4.3.4 Descartes: Meditations on First Philosophy -- full reading
- 4.3.5 Spinoza: God/Nature (Deus sive Natura), determinism, Ethics
- 4.3.6 Leibniz: monads, pre-established harmony, optimism
- 4.3.7 Hobbes: social contract, Leviathan, state of nature
- 4.3.8 Locke: tabula rasa, primary/secondary qualities, personal identity
- 4.3.9 Locke: Two Treatises -- natural rights, consent, revolution
- 4.3.10 Berkeley: immaterialism, esse est percipi, God as guarantor
- 4.3.11 Hume: bundle theory of self, causation, is-ought gap
- 4.3.12 Hume: Enquiry Concerning Human Understanding
- 4.3.13 Hume: problem of induction, miracles, design argument
- 4.3.14 Rousseau: general will, noble savage, social contract

4.4 History of Philosophy -- Modern (Kant to Nietzsche)

- 4.4.1 Kant: Copernican revolution -- mind structures experience
- 4.4.2 Kant: Critique of Pure Reason -- phenomena vs noumena

- 4.4.3 Kant: categories of understanding, transcendental aesthetic
- 4.4.4 Kant: Critique of Practical Reason -- moral law, autonomy
- 4.4.5 Kant: Critique of Judgment -- beauty, sublime, teleology
- 4.4.6 Hegel: dialectic (thesis-antithesis-synthesis), Geist (Spirit)
- 4.4.7 Hegel: Phenomenology of Spirit, master-slave dialectic
- 4.4.8 Hegel: Philosophy of Right, ethical life (Sittlichkeit)
- 4.4.9 Marx: historical materialism, alienation, class struggle
- 4.4.10 Marx: base and superstructure, ideology, commodity fetishism
- 4.4.11 Schopenhauer: will as blind striving, pessimism, compassion
- 4.4.12 Kierkegaard: leap of faith, aesthetic/ethical/religious stages
- 4.4.13 Nietzsche: death of God, will to power, Übermensch
- 4.4.14 Nietzsche: eternal recurrence, master/slave morality, perspectivism
- 4.4.15 Nietzsche: Beyond Good and Evil, Genealogy of Morals
- 4.4.16 Utilitarianism: Bentham and Mill -- texts
- 4.4.17 American Pragmatism: Peirce, James, Dewey

4.5 Political Philosophy -- Core

- 4.5.1 Authority and legitimacy: when must we obey?
- 4.5.2 Locke: consent theory of political obligation
- 4.5.3 Rawls: A Theory of Justice -- veil of ignorance, two principles
- 4.5.4 Nozick: entitlement theory, minimal state
- 4.5.5 Communitarianism: Sandel, MacIntyre -- critique of liberalism
- 4.5.6 Liberty: negative (Berlin) vs positive liberty
- 4.5.7 Republicanism: freedom as non-domination (Pettit)
- 4.5.8 Feminism: Wollstonecraft, Mill (Subjection of Women), de Beauvoir
- 4.5.9 Democracy: theories, justifications, critiques
- 4.5.10 Nationalism and cosmopolitanism
- 4.5.11 Global justice: Pogge, Singer -- obligations to the global poor
- 4.5.12 Punishment: retributivism, deterrence, rehabilitation

4.6 Aesthetics -- Philosophy of Art

- 4.6.1 What is art? Institutional theory, expression theory, mimesis
- 4.6.2 Beauty: subjective or objective? Kant's disinterested pleasure
- 4.6.3 The Sublime: Burke, Kant
- 4.6.4 Art and emotion: expression theory, Tolstoy
- 4.6.5 Art and representation: mimesis from Plato to Gombrich
- 4.6.6 Art and interpretation: intentionalism vs anti-intentionalism
- 4.6.7 Aesthetic experience: what makes it distinctive?
- 4.6.8 Art and morality: can immoral art be good art?
- 4.6.9 Music philosophy: absolute music, expression, Hanslick vs Romantic view
- 4.6.10 Literature: narrative, metaphor, truth in fiction
- 4.6.11 Architecture as art
- 4.6.12 Digital art and new aesthetic forms

** Oxford A-Level Philosophy -- read primary texts, not just summaries. Plato's Meno, Hume's Enquiry, Descartes' Meditations.*

5.1 Formal Logic -- Propositional and Predicate

- 5.1.1 Propositional logic: syntax and semantics
- 5.1.2 Natural deduction: introduction and elimination rules
- 5.1.3 Soundness and completeness of propositional logic
- 5.1.4 First-order predicate logic: quantifiers, variables, predicates
- 5.1.5 Syntax of FOL: terms, formulae, sentences
- 5.1.6 Semantics of FOL: interpretations, satisfaction, truth
- 5.1.7 Natural deduction for FOL
- 5.1.8 Godel's completeness theorem for FOL
- 5.1.9 Identity: Leibniz's law, Frege's puzzle
- 5.1.10 Definite descriptions: Russell's theory of descriptions
- 5.1.11 Modal logic: necessity and possibility operators
- 5.1.12 Kripke semantics: possible worlds, accessibility relations
- 5.1.13 Modal systems: K, T, S4, S5
- 5.1.14 Deontic logic: obligation, permission
- 5.1.15 Epistemic logic: knowledge operators
- 5.1.16 Temporal logic
- 5.1.17 Intuitionistic logic: constructive reasoning
- 5.1.18 Relevance logic
- 5.1.19 Godel's incompleteness theorems: significance for philosophy
- 5.1.20 Tarski's truth definition

5.2 Epistemology -- Advanced

- 5.2.1 Gettier problem in depth: variants and responses
- 5.2.2 Reliabilism: Goldman -- process reliabilism
- 5.2.3 Virtue epistemology: Zagzebski, Sosa -- intellectual virtues
- 5.2.4 Contextualism about knowledge: DeRose, Cohen
- 5.2.5 Subject-sensitive invariantism: Hawthorne
- 5.2.6 Epistemic relativism and its problems
- 5.2.7 Testimony: reductionism vs anti-reductionism
- 5.2.8 The a priori: Quine's attack on analyticity
- 5.2.9 Quinean holism and web of belief
- 5.2.10 Epistemic logic: knowledge and belief operators
- 5.2.11 Bayesian epistemology: degrees of belief, conditionalization
- 5.2.12 Dutch book arguments
- 5.2.13 Formal epistemology vs traditional
- 5.2.14 Naturalized epistemology: Quine
- 5.2.15 Perception: representative realism, direct realism, phenomenalism
- 5.2.16 Disjunctivism about perception
- 5.2.17 Memory and its epistemology
- 5.2.18 Self-knowledge and introspection
- 5.2.19 Group knowledge and social epistemology -- Fricker on testimonial injustice
- 5.2.20 Epistemic injustice: hermeneutical injustice

5.3 Metaphysics -- Advanced

- 5.3.1 Ontology: what exists? Quine's criterion
- 5.3.2 Properties: realism, nominalism, tropes
- 5.3.3 Relations: internal and external
- 5.3.4 Abstract objects: platonism vs nominalism
- 5.3.5 Mathematical objects: Frege, Benacerraf's problem
- 5.3.6 Mereology: parts and wholes, van Inwagen

- 5.3.7 Material constitution: statue and clay problem
- 5.3.8 Persistence: endurantism vs perdurantism (four-dimensionalism)
- 5.3.9 Personal identity advanced: Parfit -- Reasons and Persons
- 5.3.10 Modality: de re and de dicto necessity
- 5.3.11 Possible worlds: modal realism (Lewis) vs ersatzism
- 5.3.12 Causation: counterfactual theory (Lewis), transfer theory, mechanisms
- 5.3.13 Laws of nature: Humeanism vs necessitarianism
- 5.3.14 Dispositions and powers
- 5.3.15 Truthmakers: what makes true sentences true?
- 5.3.16 Grounding: the metaphysics of dependence
- 5.3.17 Fundamentality and levels of reality
- 5.3.18 Metaphysical indeterminacy
- 5.3.19 Time: presentism, eternalism, growing block
- 5.3.20 Free will advanced: Frankfurt cases, reasons-responsiveness

5.4 Philosophy of Mind -- Core

- 5.4.1 The mind-body problem: overview
- 5.4.2 Substance dualism: Descartes' problems -- interaction, causal closure
- 5.4.3 Property dualism
- 5.4.4 Behaviourism: logical and psychological -- Ryle, Watson
- 5.4.5 Type identity theory: Place, Smart -- pain = C-fibre firing
- 5.4.6 Functionalism: Putnam -- mental states defined by functional role
- 5.4.7 Multiple realizability argument against identity theory
- 5.4.8 Token identity and anomalous monism: Davidson
- 5.4.9 Eliminativism: Churchland -- folk psychology is false
- 5.4.10 Consciousness: the hard problem (Chalmers)
- 5.4.11 Explanatory gap: Levine
- 5.4.12 Qualia: what it is like to be a bat (Nagel)
- 5.4.13 Zombie argument (Chalmers): conceivability to possibility
- 5.4.14 Knowledge argument: Mary's room (Jackson)
- 5.4.15 Representationalism / higher-order theories of consciousness
- 5.4.16 Global workspace theory: Baars
- 5.4.17 Intentionality: Brentano, Husserl -- aboutness
- 5.4.18 Content: narrow vs wide, Twin Earth (Putnam)
- 5.4.19 Mental causation: epiphenomenalism and its problems
- 5.4.20 Computational theories of mind: CCTM
- 5.4.21 Chinese Room argument: Searle -- syntax not semantics
- 5.4.22 Extended mind thesis: Clark and Chalmers
- 5.4.23 Embodied and enactive cognition
- 5.4.24 Self and self-representation
- 5.4.25 Emotions: their nature and epistemic role

5.5 Ethics -- Advanced

- 5.5.1 Metaethics: cognitivism vs non-cognitivism
- 5.5.2 Moral realism: naturalism, non-naturalism, Cornell realism
- 5.5.3 Moral anti-realism: error theory (Mackie), expressivism, quasi-realism
- 5.5.4 Expressivism: Ayer, Blackburn, Gibbard -- Wise Choices, Apt Feelings
- 5.5.5 Constructivism: Rawls, Korsgaard
- 5.5.6 Particularism: Dancy -- reasons are context-dependent
- 5.5.7 Moral responsibility: sourcehood, reasons-responsiveness
- 5.5.8 Frankfurt cases and alternate possibilities
- 5.5.9 Applied ethics: abortion, euthanasia, capital punishment
- 5.5.10 Bioethics: Beauchamp and Childress -- four principles

- 5.5.11 Animal ethics: Singer, Regan -- rights vs utilitarian approach
- 5.5.12 Environmental ethics: deep ecology, land ethic (Leopold)
- 5.5.13 Global justice: cosmopolitanism vs statism
- 5.5.14 Future generations: obligations and discounting
- 5.5.15 Moral psychology: motivation, akrasia, weakness of will

5.6 Philosophy of Science

- 5.6.1 What is science? Demarcation problem
- 5.6.2 Logical positivism: verificationism, Vienna Circle
- 5.6.3 Popper: falsificationism, critical rationalism
- 5.6.4 Kuhn: paradigms, normal science, revolutionary science
- 5.6.5 Kuhn: The Structure of Scientific Revolutions
- 5.6.6 Lakatos: research programmes, hard core, protective belt
- 5.6.7 Feyerabend: epistemological anarchism -- Against Method
- 5.6.8 Scientific realism: can we believe in unobservables?
- 5.6.9 Instrumentalism and constructive empiricism: van Fraassen
- 5.6.10 Underdetermination of theory by evidence
- 5.6.11 Theory-ladenness of observation
- 5.6.12 Scientific explanation: DN model, SR model, causal
- 5.6.13 Reduction and emergence
- 5.6.14 Laws of nature in science
- 5.6.15 Probability: frequentism, propensity, Bayesianism
- 5.6.16 Philosophy of physics: space, time, quantum mechanics
- 5.6.17 Philosophy of biology: natural selection, species
- 5.6.18 Philosophy of psychology: status, reduction
- 5.6.19 Social science: naturalism vs interpretivism, verstehen
- 5.6.20 Values in science: objectivity and its limits

5.7 Continental Philosophy -- Undergraduate

- 5.7.1 Phenomenology: Husserl -- intentionality, epoché, eidetic reduction
- 5.7.2 Heidegger: Being and Time -- Dasein, being-in-the-world, authenticity
- 5.7.3 Heidegger: thrownness, fallenness, anxiety, being-toward-death
- 5.7.4 Sartre: existence precedes essence, radical freedom, bad faith
- 5.7.5 Sartre: Being and Nothingness, nothingness, the Other
- 5.7.6 Merleau-Ponty: phenomenology of perception, body-subject
- 5.7.7 De Beauvoir: The Second Sex, existentialist feminism
- 5.7.8 Camus: absurdism, the myth of Sisyphus
- 5.7.9 Gadamer: hermeneutics, fusion of horizons
- 5.7.10 Ricoeur: narrative identity, hermeneutics of suspicion
- 5.7.11 Frankfurt School: Horkheimer, Adorno -- Dialectic of Enlightenment
- 5.7.12 Habermas: communicative action, discourse ethics
- 5.7.13 Structuralism: Saussure, Levi-Strauss -- binary oppositions
- 5.7.14 Post-structuralism: Derrida -- deconstruction, différance
- 5.7.15 Foucault: power-knowledge, genealogy, disciplinary society
- 5.7.16 Deleuze and Guattari: Anti-Oedipus, rhizome, becoming
- 5.7.17 Lacan: the unconscious structured like a language
- 5.7.18 Baudrillard: simulacra and simulation
- 5.7.19 Lyotard: postmodernism, grand narratives
- 5.7.20 Levinas: ethics as first philosophy, the face of the Other

** Oxford and Cambridge Philosophy interviews: always have a philosophical view, defend it with reasons, change it if given good argument.*

6.1 Advanced Logic and Foundations of Mathematics

- 6.1.1 Set theory: ZFC axioms, ordinals, cardinals
- 6.1.2 Godel's completeness and incompleteness theorems -- proofs
- 6.1.3 Tarski's undefinability theorem
- 6.1.4 Computability and logic: Church's theorem
- 6.1.5 Second-order logic: power and limits
- 6.1.6 Proof theory: sequent calculus, cut elimination
- 6.1.7 Category theory for philosophers
- 6.1.8 Philosophy of mathematics: logicism (Frege, Russell)
- 6.1.9 Formalism: Hilbert's programme and its failure
- 6.1.10 Intuitionism: Brouwer, constructive mathematics
- 6.1.11 Structuralism in mathematics: Shapiro
- 6.1.12 Fictionalism: Field -- Science Without Numbers
- 6.1.13 Indispensability argument: Quine-Putnam
- 6.1.14 Homotopy Type Theory (HoTT) and univalent foundations

6.2 Advanced Philosophy of Mind and Language

- 6.2.1 Frege: sense and reference, the concept horse problem
- 6.2.2 Russell: logical atomism, theory of descriptions
- 6.2.3 Early Wittgenstein: Tractatus -- picture theory of meaning
- 6.2.4 Late Wittgenstein: Philosophical Investigations -- language games, family resemblance
- 6.2.5 Wittgenstein: private language argument, rule-following
- 6.2.6 Austin: speech act theory -- locutionary, illocutionary, perlocutionary
- 6.2.7 Grice: meaning, implicature, cooperative principle
- 6.2.8 Kripke: Naming and Necessity -- rigid designators, a posteriori necessity
- 6.2.9 Kripke: Wittgenstein on Rules and Private Language (Kripkenstein)
- 6.2.10 Putnam: Twin Earth, semantic externalism
- 6.2.11 Context-dependence: indexicals, demonstratives
- 6.2.12 Vagueness: epistemic, semantic indecision, supervaluationism
- 6.2.13 Truth: correspondence, coherence, deflationism, pragmatism
- 6.2.14 Metaphor and figurative language
- 6.2.15 Cognitive science and language: Chomsky's innatism
- 6.2.16 Dynamic semantics
- 6.2.17 Philosophy of psychiatry: natural kinds, mental disorder
- 6.2.18 Phenomenal concepts: the concept dualism strategy
- 6.2.19 Integrated Information Theory (Tononi): phi
- 6.2.20 Higher-order theories of consciousness: Rosenthal

6.3 Advanced Ethics and Political Philosophy

- 6.3.1 Metaethics advanced: companions in guilt arguments
- 6.3.2 Normative uncertainty: MacAskill -- how to act under moral uncertainty
- 6.3.3 Population ethics: Parfit -- Repugnant Conclusion, person-affecting views
- 6.3.4 Prioritarianism: Parfit, Temkin
- 6.3.5 Egalitarianism: Luck egalitarianism, democratic equality (Anderson)
- 6.3.6 Capabilities approach: Nussbaum -- detailed defence
- 6.3.7 Contractualism: Scanlon -- What We Owe to Each Other
- 6.3.8 Practical reason: Williams, Korsgaard, Nagel
- 6.3.9 Moral psychology advanced: Greene, Haidt -- dual process
- 6.3.10 Effective altruism: philosophical foundations and critiques
- 6.3.11 Longtermism: Ord, MacAskill -- The Precipice, What We Owe the Future
- 6.3.12 AI ethics: value alignment, rights of AI, autonomous weapons

- 6.3.13 Digital ethics: privacy, data ownership, surveillance
- 6.3.14 Bioethics advanced: enhancement, genetic editing, CRISPR
- 6.3.15 Recognition theory: Honneth, Fraser -- redistribution vs recognition
- 6.3.16 Care ethics: Noddings, Held -- relational ethics
- 6.3.17 Non-ideal theory: Mills -- racial contract, Amartya Sen
- 6.3.18 Relational autonomy: feminist critique of liberal autonomy

6.4 Advanced Metaphysics

- 6.4.1 Ontological commitment: Quine's criterion revisited
- 6.4.2 Meta-ontology: Sider, Hirsch -- verbal disputes
- 6.4.3 Neo-Aristotelian metaphysics: Lowe, Koslicki
- 6.4.4 Emergence: strong and weak, Kim's challenge
- 6.4.5 Physicalism and its threats: conceivability arguments
- 6.4.6 Pandispositionalism: all properties are powers
- 6.4.7 Structural realism: Ladyman and Ross
- 6.4.8 Naturalised metaphysics
- 6.4.9 Kit Fine: essence, ground, real definition
- 6.4.10 Jonathan Schaffer: priority monism

6.5 History of Analytic Philosophy

- 6.5.1 Frege to Russell: logical revolution
- 6.5.2 Vienna Circle and logical positivism: full treatment
- 6.5.3 Carnap: internal vs external questions, linguistic frameworks
- 6.5.4 Quine: Two Dogmas of Empiricism, ontological relativity
- 6.5.5 Wittgenstein: Tractatus to Investigations -- the shift
- 6.5.6 Ordinary language philosophy: Oxford -- Ryle, Austin, Strawson
- 6.5.7 Kripke's revolution: necessity, reference, essence
- 6.5.8 Armstrong: universals, truthmakers, states of affairs
- 6.5.9 David Lewis: modal realism, counterpart theory, Humean supervenience
- 6.5.10 The rise of naturalised philosophy

** Key texts: Kripke's Naming and Necessity, Parfit's Reasons and Persons, Lewis's On the Plurality of Worlds -- must read all three.*

CHAPTER 7 -- PhD / RESEARCH FRONTIER (Level 7 | Oxford . Cambridge . NYU . Harvard)

Yeh wo level hai jahan original philosophical research hoti hai. Oxford Metaphysics group, NYU Philosophy (world's top ranked), Cambridge, Harvard, Princeton, MIT -- yahan researchers naye arguments develop karte hain, purane positions ko challenge karte hain, aur naye areas open karte hain. PhD thesis mein ek original contribution hona zaroori hai.

7.1 Frontier Metaphysics

- 7.1.1 Grounding and explanation: hyperintensionality, Kit Fine's programme
- 7.1.2 Metaphysical indeterminacy: Barnes and Williams
- 7.1.3 Fundamentality and levels: Schaffer's priority monism vs pluralism
- 7.1.4 Persistence and time: four-dimensionalism debates
- 7.1.5 Modality: new debates on necessity, contingency, essence
- 7.1.6 Social ontology: Searle, Haslanger -- social construction
- 7.1.7 Race and gender: metaphysical debates (Haslanger, Jenkins)
- 7.1.8 Fiction and fictional objects: Meinongianism vs Zalta
- 7.1.9 Mathematical structuralism: ante rem vs in re
- 7.1.10 Truthmaker theory: Armstrong, Rodriguez-Pereyra
- 7.1.11 Infinitary and non-classical metaphysics
- 7.1.12 Powers and dispositions: Bird vs Lewis debate

7.2 Frontier Philosophy of Mind and Consciousness

- 7.2.1 Hard problem: new responses -- illusionism (Frankish), panpsychism
- 7.2.2 Panpsychism: Chalmers, Strawson, Goff -- Galileo's Error
- 7.2.3 Constitutive panpsychism and combination problem
- 7.2.4 Russellian monism
- 7.2.5 Illusionism: consciousness as a kind of illusion (Frankish, Dennett)
- 7.2.6 Predictive processing: Clark, Friston -- free energy principle
- 7.2.7 Active inference
- 7.2.8 Phenomenal concepts strategy: advanced
- 7.2.9 Animal consciousness and moral status
- 7.2.10 Consciousness of AI systems: when would we know?
- 7.2.11 Disorders of consciousness: philosophy meets neuroscience
- 7.2.12 Affective consciousness and emotion
- 7.2.13 Philosophy of psychiatry: natural kinds revisited

7.3 Frontier Ethics

- 7.3.1 Population ethics: solving the Repugnant Conclusion
- 7.3.2 Variable value theories, critical level utilitarianism
- 7.3.3 Moral uncertainty: moral parliament, parliamentary model
- 7.3.4 Longtermism and its critics: Greaves and MacAskill
- 7.3.5 Existential risk philosophy: Ord -- The Precipice
- 7.3.6 AI alignment as ethics: value learning, corrigibility
- 7.3.7 Robot rights and moral patiency
- 7.3.8 Climate ethics: responsibility, mitigation, adaptation
- 7.3.9 Ethics of enhancement: cognitive, moral, genetic
- 7.3.10 Moral status: what grounds moral consideration?
- 7.3.11 Practical ethics: new cases from medicine and technology
- 7.3.12 Non-Western ethics at the frontier: African ubuntu, Confucian revival

7.4 Frontier Epistemology

- 7.4.1 Higher-order evidence and peer disagreement

- 7.4.2 Epistemic akrasia: akratic belief and its problems
- 7.4.3 Externalism vs internalism: the new debates
- 7.4.4 Knowledge-first epistemology: Williamson -- Knowledge and its Limits
- 7.4.5 Epistemic injustice: Fricker -- developing the theory
- 7.4.6 Social epistemology: collective knowledge, group belief
- 7.4.7 Epistemic democracy: deliberation and epistemic value
- 7.4.8 Misinformation and epistemic responsibility
- 7.4.9 Formal epistemology: accuracy-first epistemology
- 7.4.10 Imprecise credences and sets of probabilities
- 7.4.11 Decision theory: expected utility, problems and revisions

7.5 Frontier Political Philosophy

- 7.5.1 Non-ideal theory vs ideal theory: Mills, Sen, Farrelly
- 7.5.2 Relational egalitarianism: Anderson, Scheffler
- 7.5.3 Democratic theory: epistemic democracy (Estlund), lotocracy
- 7.5.4 Political legitimacy: Estlund, Christiano
- 7.5.5 Immigration and borders: Carens -- open borders
- 7.5.6 Reparations: philosophical arguments
- 7.5.7 Decolonial political philosophy: Fanon's legacy
- 7.5.8 Ecological political philosophy: climate justice
- 7.5.9 Technology and democracy: platform power
- 7.5.10 Philosophy of law advanced: jurisprudence, constitutional theory

7.6 Frontier Philosophy of Science

- 7.6.1 Quantum mechanics interpretation: Copenhagen, Many Worlds, Pilot Wave, QBism
- 7.6.2 Philosophy of spacetime: general relativity, hole argument
- 7.6.3 Arrow of time: statistical mechanics and time asymmetry
- 7.6.4 Causation in science: interventionism (Woodward)
- 7.6.5 Scientific understanding: Strevens, de Regt
- 7.6.6 Philosophy of neuroscience: reduction, levels, mechanisms
- 7.6.7 Philosophy of economics: models, rational choice, welfare
- 7.6.8 Computational philosophy: using computers in philosophical work
- 7.6.9 Evidence-based medicine and its philosophy
- 7.6.10 Philosophy of climate science: models, uncertainty, values

7.7 Decolonial and Non-Western Philosophy

- 7.7.1 African philosophy: ubuntu, communalism, Wiredu's conceptual decolonisation
- 7.7.2 Indian philosophy: Nyaya (logic), Advaita Vedanta, Buddhist logic
- 7.7.3 Buddhist philosophy: Nagarjuna's Madhyamaka, emptiness (sunyata)
- 7.7.4 Dharmakirti: epistemology and logic in Buddhist tradition
- 7.7.5 Chinese philosophy: Confucius, Mencius, Xunzi, Daoist metaphysics
- 7.7.6 Islamic philosophy at the frontier: Mulla Sadra, contemporary Islamic ethics
- 7.7.7 Latin American philosophy: liberation philosophy, Dussel
- 7.7.8 Global philosophy: can there be a universal philosophy?
- 7.7.9 Decolonising the philosophy curriculum: Yancy, Park
- 7.7.10 Philosophy of race: Du Bois, Fanon, Mills -- advanced treatment

7.8 PhD Research Process

- 7.8.1 Identifying an original research question
- 7.8.2 Situating work within existing literature
- 7.8.3 The philosophical argument: construction and defence
- 7.8.4 Responding to objections: dialectical skill
- 7.8.5 Writing clearly: the philosopher's craft
- 7.8.6 Writing a DPhil/PhD thesis: 80,000 words

- 7.8.7 Viva voce: defending your position
- 7.8.8 Publishing in peer-reviewed journals
- 7.8.9 Conference presentations and academic networking
- 7.8.10 The academic job market in philosophy

COMPLETE ROADMAP -- AT A GLANCE

Chap.	Level	Age	Core Areas	Topics
1	L1	4-8	Big questions, fairness, thinking about thinking, logic intro	~40
2	L2	8-12	Famous thinkers, thought experiments, ethics, formal logic intro, mind	~65
3	L3	12-15	Formal logic, epistemology, metaphysics, ethics (consequentialism/deontology/virtue), philosophy of religion	90
4	L4	15-18	Ancient/Medieval/Islamic/Modern history of philosophy, political philosophy, aesthetics	110
5	L5	18-21	Formal logic (FOL, 1st order), epistemology, metaphysics, philosophy of mind, ethics (metaethics), philosophy of science, continental	155
6	L6	21-28	Advanced logic, foundations of maths, philosophy of language, advanced ethics, advanced metaphysics, history of analytic	180
7	L7	28+	Frontier: consciousness, longtermism, QM interpretation, decolonial philosophy, research process	85
TOTAL				~655+ Topics

Yeh roadmap Oxford PPE aur Philosophy DPhil, Cambridge Philosophy, Harvard Philosophy PhD, NYU (world's top ranked), Princeton, MIT aur LSE Philosophy ke syllabi par based hai. Socrates se panpsychism tak, Ibn Rushd se longtermism tak -- Philosophy ka safar 'kyun?' poochne se shuru hota hai aur kabhi khatam nahi hota. Sawaal poochho, jawab dhundo, phir naye sawaal poochho.
