

THE COMPLETE SOCIAL SCIENCES ROADMAP

History · Politics · Economics · Sociology · Geography · Law · International Relations

Shuruaat se Oxford DPhil / Harvard PhD tak — Mukammal Ordered Topics

Yeh PDF Social Sciences ka **mukammal ordered roadmap** hai. Isme **History, Political Science, Economics, Sociology, Geography, Law, aur International Relations** — sab shamil hain. Yeh sab ek doosre se gehri tarah jure hue hain, isliye ek hi document mein rakhe gaye hain. Bilkul pehle 'map kya hota hai' se lekar Oxford DPhil level ke critical theory, comparative politics, aur historiography tak — koi cheez nahi chodi. Harvard, Oxford, Cambridge, LSE, Sciences Po — sab ke syllabi is mein shamil hain.

LEVEL	STAGE	SUBJECTS COVERED
Level 1	Age 3–6	Community, family, maps, time — concrete world
Level 2	Age 6–10	Local history, geography, community, civics basics
Level 3	Age 10–13	National history, world geography, economics intro, government
Level 4	Age 13–16	World history, political systems, economics, IGCSE
Level 5	Age 16–18	A-Level: modern history, political theory, macro/micro economics
Level 6	Age 18–21	Undergraduate: political science, sociology, history methods
Level 7	Age 21–23	Graduate: theory, comparative politics, IR, economic theory
Level 8	Age 23–26	PhD: research frontier, Oxford/Harvard/LSE level

1.1 Self and Family

- 1.1.1 My name, age, family members
- 1.1.2 Roles in a family: mother, father, siblings, grandparents
- 1.1.3 Emotions: happy, sad, angry, scared, surprised
- 1.1.4 Taking turns and sharing — fairness concept
- 1.1.5 Rules at home and why they exist
- 1.1.6 Similarities and differences between people

1.2 Community

- 1.2.1 Neighbourhood: houses, roads, parks, shops
- 1.2.2 Community helpers: doctor, teacher, police, firefighter, farmer
- 1.2.3 Places in the community: school, market, hospital, mosque/temple/church
- 1.2.4 How people depend on each other

1.3 Time and Sequence

- 1.3.1 Before and after
- 1.3.2 Days of the week, months
- 1.3.3 Morning, afternoon, evening, night
- 1.3.4 Seasons and their features
- 1.3.5 Yesterday, today, tomorrow
- 1.3.6 Old and new: comparing past and present objects

1.4 Maps and Space

- 1.4.1 My home — simple floor plan
- 1.4.2 My classroom — simple map
- 1.4.3 Directions: left, right, near, far
- 1.4.4 Globe and flat map — concept
- 1.4.5 Land and water on a globe

1.5 Celebrations and Culture

- 1.5.1 Festivals in my family and community
- 1.5.2 Different religions and their celebrations — respect
- 1.5.3 Traditional food, dress, music
- 1.5.4 Respecting differences

★ *Parents: Apne sheher ki sair karao, local market, police station — real world observations best teachers hain.*

2.1 History — My Family and Community

- 2.1.1 Family history: grandparents' time vs today
- 2.1.2 How homes, schools, transport changed over time
- 2.1.3 Timeline: sequencing events in order
- 2.1.4 Primary and secondary sources — concept
- 2.1.5 Artefacts: objects tell us about the past
- 2.1.6 Oral history: stories from elders
- 2.1.7 Local history: town/city history
- 2.1.8 Famous historical figures in my country

2.2 Geography — Local to National

- 2.2.1 Maps: symbols, keys, compass rose
- 2.2.2 Physical features: mountains, rivers, deserts, plains, coasts
- 2.2.3 My country's geography: states/provinces, major cities
- 2.2.4 Climate zones: tropical, arid, temperate, polar
- 2.2.5 Landforms and their uses
- 2.2.6 Natural resources: water, forests, minerals, soil
- 2.2.7 Human vs physical geography
- 2.2.8 Rural and urban areas
- 2.2.9 Population distribution — why people live where they do
- 2.2.10 Seven continents and five oceans
- 2.2.11 Latitude and longitude — basic
- 2.2.12 Grid references on a map

2.3 Civics — Government Basics

- 2.3.1 Why do we need rules and laws?
- 2.3.2 Difference between rules and laws
- 2.3.3 Rights and responsibilities
- 2.3.4 Local government: what does it do?
- 2.3.5 National government: leader, parliament, courts — basic
- 2.3.6 Democracy: people choose their leaders
- 2.3.7 Voting: how and why
- 2.3.8 Citizens: rights and duties
- 2.3.9 Constitution — concept: the highest law

2.4 Economics — Basic Concepts

- 2.4.1 Needs vs wants
- 2.4.2 Goods and services
- 2.4.3 Producers and consumers
- 2.4.4 Earning, spending, saving — pocket money level
- 2.4.5 Barter vs money economy
- 2.4.6 Trade: buying and selling
- 2.4.7 Local, national, and global trade — concept
- 2.4.8 Jobs and occupations — how people earn
- 2.4.9 Taxes — why we pay them

2.5 World Geography Overview

- 2.5.1 Major countries and capitals
- 2.5.2 Flags and basic facts
- 2.5.3 World climate regions
- 2.5.4 Famous landmarks: Eiffel Tower, Pyramids, Great Wall

2.5.5 United Nations — concept and purpose

★ *NCERT Social Science Class 3-6 is level ke liye excellent hai. Atlas zaroor kharidein.*

3.1 Ancient and Medieval History

- 3.1.1 Early humans: hunter-gatherers to settled farming (Neolithic Revolution)
- 3.1.2 First civilisations: Mesopotamia (Sumer, Babylon), Egypt, Indus Valley, China
- 3.1.3 Ancient Egypt: pharaohs, pyramids, hieroglyphics, social structure
- 3.1.4 Ancient Greece: city-states, democracy, philosophy, Olympics
- 3.1.5 Ancient Rome: Republic and Empire, law, roads, fall
- 3.1.6 Ancient India: Maurya, Gupta empires, Buddhism, Hinduism
- 3.1.7 Ancient China: dynasties, Great Wall, silk road, Confucius
- 3.1.8 Islam and the Islamic Golden Age (7th–13th century)
- 3.1.9 Medieval Europe: feudalism, Church, Crusades
- 3.1.10 Byzantine Empire
- 3.1.11 Mongol Empire: Genghis Khan, largest land empire
- 3.1.12 African kingdoms: Mali, Songhai, Great Zimbabwe, Aksum
- 3.1.13 Pre-Columbian Americas: Maya, Aztec, Inca
- 3.1.14 The Black Death and its consequences
- 3.1.15 Renaissance: art, science, humanism

3.2 Early Modern History

- 3.2.1 Age of Exploration: Columbus, Vasco da Gama, Magellan
- 3.2.2 Columbian Exchange: crops, diseases, people between continents
- 3.2.3 Reformation: Martin Luther, Protestant vs Catholic
- 3.2.4 Scientific Revolution: Copernicus, Galileo, Newton
- 3.2.5 Mughal Empire: Akbar, Aurangzeb, art and culture
- 3.2.6 Ottoman Empire: rise and fall
- 3.2.7 Trans-Atlantic slave trade: causes, scale, consequences
- 3.2.8 European colonialism in Asia, Africa, Americas

3.3 Geography — Physical

- 3.3.1 Plate tectonics: earthquakes and volcanoes
- 3.3.2 Rock cycle: igneous, sedimentary, metamorphic
- 3.3.3 Rivers: erosion, transportation, deposition, landforms
- 3.3.4 Coasts: erosion and deposition features
- 3.3.5 Weather vs climate
- 3.3.6 Water cycle: evaporation, condensation, precipitation
- 3.3.7 Biomes: rainforest, savanna, desert, tundra, temperate forest
- 3.3.8 Ecosystems and food chains
- 3.3.9 Natural disasters: hurricanes, floods, droughts, tsunamis

3.4 Geography — Human

- 3.4.1 Population: growth, distribution, density
- 3.4.2 Birth rate, death rate, natural increase
- 3.4.3 Migration: causes (push/pull factors), types
- 3.4.4 Urbanisation: causes and effects
- 3.4.5 Development: measuring HDI, GDP per capita
- 3.4.6 Development gap: rich and poor countries
- 3.4.7 Aid: types, effectiveness, dependency
- 3.4.8 Globalisation: trade, TNCs, cultural spread
- 3.4.9 Environmental issues: deforestation, desertification, pollution
- 3.4.10 Climate change: causes, effects, responses
- 3.4.11 Sustainable development

3.5 Political Systems — Comparative

- 3.5.1 Types of government: democracy, monarchy, dictatorship, theocracy
- 3.5.2 Parliamentary vs presidential systems
- 3.5.3 Federal vs unitary states
- 3.5.4 Constitutions: written and unwritten
- 3.5.5 Separation of powers: legislature, executive, judiciary
- 3.5.6 Elections: proportional representation, first-past-the-post
- 3.5.7 Political parties and their roles
- 3.5.8 Civil liberties and human rights — basic
- 3.5.9 Rule of law

3.6 Economics — Intermediate

- 3.6.1 Scarcity, choice, and opportunity cost
- 3.6.2 Factors of production: land, labour, capital, enterprise
- 3.6.3 Supply and demand — basic
- 3.6.4 Markets: how prices are set
- 3.6.5 Types of economy: market, planned, mixed
- 3.6.6 Sectors: primary, secondary, tertiary, quaternary
- 3.6.7 Globalisation and world trade
- 3.6.8 Development and poverty
- 3.6.9 Environmental economics intro: externalities

4.1 World History — Modern (1750–Present)

- 4.1.1 American Revolution (1775–1783): causes, events, significance
- 4.1.2 French Revolution (1789): causes, phases, Terror, Napoleon
- 4.1.3 Industrial Revolution: causes, social changes, urbanisation, working conditions
- 4.1.4 Nationalism in Europe: unification of Germany and Italy
- 4.1.5 European imperialism in Africa (Scramble for Africa)
- 4.1.6 British colonialism in India: Raj, resistance, 1857 uprising
- 4.1.7 China in the 19th century: Opium Wars, Boxer Rebellion, decline
- 4.1.8 Japanese Meiji Restoration: modernisation
- 4.1.9 World War I (1914–1918): causes (MAIN), events, consequences
- 4.1.10 Russian Revolution (1917): causes, Bolsheviks, Lenin, Stalin
- 4.1.11 Inter-war period: Great Depression, rise of fascism
- 4.1.12 World War II (1939–1945): causes, Holocaust, key battles, consequences
- 4.1.13 Decolonisation: Africa and Asia gaining independence
- 4.1.14 Cold War (1947–1991): ideological conflict, proxy wars, arms race
- 4.1.15 Korean War, Vietnam War — Cold War conflicts
- 4.1.16 Cuban Missile Crisis
- 4.1.17 Fall of Berlin Wall (1989) and dissolution of USSR (1991)
- 4.1.18 Post-Cold War world: globalisation, terrorism, rise of China

4.2 South Asian History

- 4.2.1 Indus Valley Civilisation — detailed
- 4.2.2 Vedic period and early kingdoms
- 4.2.3 Mauryan Empire: Chandragupta, Ashoka
- 4.2.4 Gupta Empire: golden age of India
- 4.2.5 Medieval Indian kingdoms: Chola, Vijayanagara, Delhi Sultanate
- 4.2.6 Mughal Empire: detailed study
- 4.2.7 British East India Company
- 4.2.8 1857 — First War of Independence
- 4.2.9 Indian National Congress and freedom movement
- 4.2.10 Gandhi: non-violent resistance, Salt March
- 4.2.11 Partition of India (1947): causes, violence, consequences
- 4.2.12 History of Pakistan: founding, Jinnah, early challenges
- 4.2.13 1971 and the creation of Bangladesh
- 4.2.14 Cold War in South Asia
- 4.2.15 India-Pakistan relations and Kashmir

4.3 Political Science — Core Concepts

- 4.3.1 What is politics? — power, authority, legitimacy
- 4.3.2 State, nation, nation-state
- 4.3.3 Sovereignty: internal and external
- 4.3.4 Political ideologies: liberalism, conservatism, socialism, nationalism, fascism, anarchism
- 4.3.5 Left-right political spectrum
- 4.3.6 Democracy: types, conditions, strengths/weaknesses
- 4.3.7 Elections and electoral systems
- 4.3.8 Political parties: functions, types
- 4.3.9 Pressure groups and civil society
- 4.3.10 Media and politics: fourth estate
- 4.3.11 Human rights: UDHR (1948) — articles
- 4.3.12 United Nations: structure, functions, Security Council, veto
- 4.3.13 International organisations: World Bank, IMF, WTO, NATO, EU

4.3.14 Conflict and peace: causes of war, peacekeeping

4.4 Economics — IGCSE Level

- 4.4.1 Basic economic problem: unlimited wants, scarce resources
- 4.4.2 Production possibility curve (PPC)
- 4.4.3 Demand: law, determinants, shifts
- 4.4.4 Supply: law, determinants, shifts
- 4.4.5 Equilibrium price and quantity
- 4.4.6 Price elasticity of demand (PED)
- 4.4.7 Price elasticity of supply (PES)
- 4.4.8 Income elasticity of demand (YED)
- 4.4.9 Market structures: perfect competition, monopoly, oligopoly
- 4.4.10 Government intervention: taxes, subsidies, price controls, regulation
- 4.4.11 Market failure: externalities, public goods, information failure
- 4.4.12 National income: GDP, GNP, GNI
- 4.4.13 Economic growth: causes and consequences
- 4.4.14 Business cycle: boom, recession, depression, recovery
- 4.4.15 Inflation: causes (demand-pull, cost-push), effects, measurement (CPI)
- 4.4.16 Unemployment: types (frictional, structural, cyclical), effects
- 4.4.17 Fiscal policy: government spending and taxation
- 4.4.18 Monetary policy: interest rates, money supply
- 4.4.19 Balance of payments: current account, capital account
- 4.4.20 Exchange rates: fixed, floating, managed
- 4.4.21 International trade: comparative advantage, free trade, protectionism
- 4.4.22 Globalisation: benefits and costs
- 4.4.23 Development economics: HDI, poverty, inequality (Gini coefficient)

4.5 Sociology — Introduction

- 4.5.1 What is sociology? Studying society scientifically
- 4.5.2 Socialisation: primary and secondary
- 4.5.3 Social institutions: family, education, religion, media, government
- 4.5.4 Social stratification: class, caste, gender, race
- 4.5.5 Social mobility: upward and downward
- 4.5.6 Culture: norms, values, beliefs, sanctions
- 4.5.7 Subculture and counterculture
- 4.5.8 Gender roles and gender inequality
- 4.5.9 Racial and ethnic inequality
- 4.5.10 Poverty: absolute and relative, causes
- 4.5.11 Crime and deviance: functionalist, strain theory
- 4.5.12 Education and social inequality
- 4.5.13 Media and its influence

4.6 Geography — Advanced IGCSE

- 4.6.1 Tectonics: fold mountains, ocean trenches, hotspots
- 4.6.2 Volcanoes: types, causes, management
- 4.6.3 Earthquakes: measurement, impacts, management
- 4.6.4 River landforms: V-valley, waterfall, meander, ox-bow, delta, floodplain
- 4.6.5 Coastal landforms: cliffs, arches, stacks, spits, bars, beaches
- 4.6.6 Population pyramid: analysis and prediction
- 4.6.7 Demographic transition model (DTM): 5 stages
- 4.6.8 Case studies: urbanisation in MEDCs and LEDCs
- 4.6.9 Settlement patterns and hierarchy
- 4.6.10 Tourism: ecotourism, sustainable tourism

4.6.11 Energy: fossil fuels, renewables, nuclear

4.6.12 Food supply and security

4.6.13 Climate change: evidence, causes, impacts, mitigation, adaptation

4.6.14 Fieldwork and data collection methods

★ *Cambridge IGCSE History (0470), Economics (0455), Sociology (0495), Geography (0460) past papers solve karo.*

5.1 Modern World History — A-Level

- 5.1.1 Causes of WWI: alliance system, imperialism, nationalism, militarism, assassination
- 5.1.2 WWI on the Western Front: trench warfare, key battles (Somme, Verdun, Passchendaele)
- 5.1.3 WWI: other fronts — Eastern, Gallipoli, Middle East
- 5.1.4 Treaty of Versailles (1919): terms, reactions, consequences
- 5.1.5 League of Nations: structure, successes, failures
- 5.1.6 Weimar Republic: birth, hyperinflation, culture, instability
- 5.1.7 Rise of Nazism: Hitler's appeal, propaganda, terror
- 5.1.8 Nazi Germany: totalitarian state, racial policies, Holocaust
- 5.1.9 Rise of Fascism in Italy: Mussolini
- 5.1.10 Soviet Union under Stalin: collectivisation, five-year plans, purges, gulag
- 5.1.11 Causes of WWII: appeasement, Nazi foreign policy
- 5.1.12 WWII: key theatres — Europe, Pacific, North Africa
- 5.1.13 Holocaust: causes, scale, mechanics, aftermath
- 5.1.14 Atomic bombs on Japan: decision, consequences
- 5.1.15 Origins of the Cold War: Yalta, Potsdam, Truman Doctrine
- 5.1.16 Cold War crises: Berlin Blockade, Cuban Missile Crisis, Korean War, Vietnam
- 5.1.17 Decolonisation: India, Africa, Southeast Asia
- 5.1.18 China: Civil War, Mao, Cultural Revolution, Great Leap Forward
- 5.1.19 Middle East conflicts: Arab-Israeli wars, Palestine
- 5.1.20 Collapse of communism: Gorbachev, 1989 revolutions
- 5.1.21 Post-Cold War: Gulf War, Balkan Wars, 9/11, War on Terror

5.2 Political Theory — A-Level

- 5.2.1 Liberalism: classical, modern, neoliberalism — Locke, Mill, Rawls
- 5.2.2 Conservatism: traditional, one-nation, New Right — Burke, Oakeshott, Thatcher
- 5.2.3 Socialism: Marxism, social democracy, democratic socialism — Marx, Bernstein, Crosland
- 5.2.4 Nationalism: liberal, conservative, expansionist, anti-colonial nationalism
- 5.2.5 Anarchism: individualist and collectivist — Proudhon, Bakunin, Kropotkin
- 5.2.6 Feminism: liberal, socialist, radical, intersectional
- 5.2.7 Ecologism / Green politics
- 5.2.8 Multiculturalism: liberal and pluralist
- 5.2.9 Populism: left and right
- 5.2.10 Fascism and the far right
- 5.2.11 Theories of the state: pluralist, elitist, Marxist
- 5.2.12 Social contract theory: Hobbes, Locke, Rousseau
- 5.2.13 Justice: Rawls' veil of ignorance, Nozick's libertarianism

5.3 Comparative Government — A-Level

- 5.3.1 UK political system: Parliament, PM, Cabinet, monarchy
- 5.3.2 US political system: Congress, President, Supreme Court, federalism
- 5.3.3 India: parliamentary democracy, federalism, constitution
- 5.3.4 China: Communist Party rule, National People's Congress
- 5.3.5 Russia: semi-presidential, Putin and authoritarianism
- 5.3.6 European Union: institutions, decision-making, Brexit
- 5.3.7 Electoral systems comparison: FPTP, PR, AV, STV
- 5.3.8 Constitutions comparison: codified, uncoded
- 5.3.9 Judicial review and constitutional courts
- 5.3.10 Civil liberties: free speech, privacy, assembly

5.4 International Relations — A-Level

- 5.4.1 Theories of IR: realism, liberalism, constructivism
- 5.4.2 State as primary actor: sovereignty, national interest
- 5.4.3 Balance of power and hegemony
- 5.4.4 International institutions: UN, IMF, WTO, NATO, EU
- 5.4.5 Nuclear proliferation and arms control
- 5.4.6 Terrorism: definitions, causes, responses
- 5.4.7 Humanitarian intervention and R2P (Responsibility to Protect)
- 5.4.8 Human rights in international law
- 5.4.9 Global governance: multilateralism vs unilateralism
- 5.4.10 Climate change as a global political issue
- 5.4.11 US foreign policy: isolationism to hegemony
- 5.4.12 Rise of China: Belt and Road, South China Sea

5.5 Economics — A-Level

- 5.5.1 Microeconomics: consumer theory — utility, indifference curves
- 5.5.2 Production theory: short run, long run, returns to scale
- 5.5.3 Cost curves: ATC, AVC, AFC, MC
- 5.5.4 Revenue: TR, AR, MR
- 5.5.5 Profit maximisation: $MR = MC$
- 5.5.6 Perfect competition: long-run equilibrium
- 5.5.7 Monopoly: diagrams, welfare loss, price discrimination
- 5.5.8 Monopolistic competition
- 5.5.9 Oligopoly: game theory, Nash equilibrium, collusion
- 5.5.10 Market failure: externalities, public goods, asymmetric information, merit goods
- 5.5.11 Government failure
- 5.5.12 Labour markets: wages, minimum wage, trade unions
- 5.5.13 Macroeconomics: AD/AS model
- 5.5.14 Multiplier effect
- 5.5.15 Keynesian vs monetarist debate
- 5.5.16 Supply-side policies
- 5.5.17 Phillips curve: inflation-unemployment trade-off
- 5.5.18 International trade: Heckscher-Ohlin, comparative advantage
- 5.5.19 Current account deficits and surpluses
- 5.5.20 Development economics: structural transformation, dependency theory
- 5.5.21 Behavioural economics: nudge theory, bounded rationality

5.6 Sociology — A-Level

- 5.6.1 Sociological perspectives: functionalism, Marxism, feminism, interactionism, postmodernism
- 5.6.2 Research methods: quantitative vs qualitative, positivism vs interpretivism
- 5.6.3 Families: types, functionalist, Marxist, feminist views, changing patterns
- 5.6.4 Education: functions, class, gender, ethnicity and attainment
- 5.6.5 Religion: secularisation debate, fundamentalism, religion and inequality
- 5.6.6 Crime and deviance: labelling theory, subculture, strain theory, control theory
- 5.6.7 Stratification: class, gender, ethnicity, age
- 5.6.8 Globalisation and its effects on society
- 5.6.9 Media: ownership, influence, representation
- 5.6.10 Health: social inequalities in health

★ *Cambridge A-Level History, Politics, Economics, Sociology: extensive reading is essential. Read quality newspapers daily.*

6.1 Historical Methods and Historiography

- 6.1.1 What is history? — philosophy of history
- 6.1.2 Primary vs secondary sources — rigorous distinction
- 6.1.3 Archival research: using national archives
- 6.1.4 Historical criticism: internal and external
- 6.1.5 Historiography: how interpretations change over time
- 6.1.6 Schools of historical thought: Whig history, Marxist history, Annales School
- 6.1.7 Annales School: Braudel — *longue durée*, geographical history
- 6.1.8 Social history: history from below (E.P. Thompson)
- 6.1.9 Cultural history: Clifford Geertz — thick description
- 6.1.10 Intellectual history: history of ideas
- 6.1.11 Postcolonial history: Subaltern Studies — Guha, Spivak, Chakrabarty
- 6.1.12 Gender history: women's history and beyond
- 6.1.13 Global history and world history — Bayly, Pomeranz
- 6.1.14 Quantitative methods in history: cliometrics
- 6.1.15 Digital history and new archives
- 6.1.16 Memory studies: collective memory, Pierre Nora — *lieux de mémoire*
- 6.1.17 Writing history: essay, monograph, article

6.2 Political Science — Core Theories

- 6.2.1 Classical political philosophy: Plato, Aristotle
- 6.2.2 Medieval political thought: Aquinas, Machiavelli
- 6.2.3 Social contract: Hobbes (*Leviathan*), Locke (*Two Treatises*), Rousseau
- 6.2.4 Liberalism: Mill (*On Liberty*, Utilitarianism), Kant
- 6.2.5 Marxism: Marx and Engels — historical materialism, class struggle
- 6.2.6 Utilitarianism: Bentham, Mill
- 6.2.7 Conservatism: Burke — tradition, gradualism
- 6.2.8 Justice: Rawls (*A Theory of Justice*), Nozick (*Anarchy, State, Utopia*)
- 6.2.9 Communitarianism: Sandel, MacIntyre, Walzer
- 6.2.10 Republicanism: Pettit — freedom as non-domination
- 6.2.11 Theories of democracy: participatory, deliberative, agonistic
- 6.2.12 Habermas: public sphere and deliberative democracy
- 6.2.13 Power: Dahl (pluralism), Bachrach-Baratz (two faces), Lukes (three dimensions)
- 6.2.14 State theories: pluralism, elitism (C. Wright Mills), Marxism
- 6.2.15 New institutionalism: rational choice, sociological, historical
- 6.2.16 Rational choice theory in politics

6.3 Comparative Politics

- 6.3.1 What is comparative politics? Methods: case study, MSSD, MDSD, statistical
- 6.3.2 Political systems: presidential vs parliamentary vs semi-presidential
- 6.3.3 Electoral systems and their consequences (Duverger's law)
- 6.3.4 Party systems: two-party, multi-party, dominant party
- 6.3.5 Coalition government and coalition theory
- 6.3.6 Federalism: types, advantages, disadvantages
- 6.3.7 Democratisation: waves, transitions, consolidation
- 6.3.8 Democratic backsliding and hybrid regimes
- 6.3.9 Authoritarianism: types, survival mechanisms, collapse
- 6.3.10 Revolutions: causes and outcomes — Skocpol's structural theory
- 6.3.11 Civil war: causes, duration, resolution
- 6.3.12 Ethnic conflict and nationalism
- 6.3.13 State capacity and state failure

- 6.3.14 Populism: Mudde and Kaltwasser
- 6.3.15 Political economy: Varieties of Capitalism (Hall and Soskice)

6.4 International Relations — Theories

- 6.4.1 Realism: classical (Morgenthau), structural/neo-realism (Waltz)
- 6.4.2 Liberalism: Kant's perpetual peace, democratic peace theory, interdependence
- 6.4.3 Neoliberal institutionalism: Keohane, Nye
- 6.4.4 Constructivism: Wendt — 'anarchy is what states make of it'
- 6.4.5 English School: Bull — anarchical society, international society
- 6.4.6 Critical theory in IR: Gramsci-inspired, Frankfurt School
- 6.4.7 Post-colonialism in IR
- 6.4.8 Feminist IR theory
- 6.4.9 Security studies: traditional vs human security, Copenhagen School
- 6.4.10 Securitisation theory: Buzan, Waever
- 6.4.11 International political economy (IPE): hegemonic stability, dependency
- 6.4.12 Global governance: multilateralism, regime theory
- 6.4.13 War studies: Clausewitz — war as politics, just war theory
- 6.4.14 Nuclear strategy: deterrence, MAD, first strike
- 6.4.15 Terrorism: definitions, causes, radicalisation
- 6.4.16 Peacekeeping and peacebuilding

6.5 Economics — Undergraduate

- 6.5.1 Consumer theory: utility maximisation, budget constraints
- 6.5.2 Revealed preference
- 6.5.3 Production theory: Cobb-Douglas function
- 6.5.4 General equilibrium: Walrasian equilibrium
- 6.5.5 Game theory: Nash equilibrium, prisoner's dilemma, repeated games
- 6.5.6 Mechanism design and information economics
- 6.5.7 Macroeconomics: IS-LM model
- 6.5.8 AS-AD model and business cycles
- 6.5.9 Solow growth model
- 6.5.10 Endogenous growth theory
- 6.5.11 Dynamic macroeconomics: rational expectations, Lucas critique
- 6.5.12 New Keynesian economics: sticky prices, menu costs
- 6.5.13 International economics: Mundell-Fleming model
- 6.5.14 Development economics: Rostow, Lewis, Sen — capabilities approach
- 6.5.15 Welfare economics: Pareto efficiency, social welfare functions
- 6.5.16 Public economics: optimal taxation (Ramsey, Mirrlees)
- 6.5.17 Econometrics: OLS regression, hypothesis testing in economics
- 6.5.18 Time series econometrics: stationarity, cointegration
- 6.5.19 Behavioural economics: Kahneman, Thaler — prospect theory, nudge

6.6 Sociology — Undergraduate

- 6.6.1 Durkheim: suicide, social facts, functionalism, anomie
- 6.6.2 Marx: alienation, modes of production, base-superstructure, ideology
- 6.6.3 Weber: bureaucracy, rationalisation, Protestant ethic, ideal types
- 6.6.4 Simmel: modernity, money, metropolis
- 6.6.5 Parsons: AGIL, pattern variables, social systems
- 6.6.6 Goffman: dramaturgical model, stigma, total institutions
- 6.6.7 Garfinkel: ethnomethodology
- 6.6.8 Bourdieu: habitus, field, capital (economic, cultural, social, symbolic)
- 6.6.9 Foucault: discipline, surveillance, power-knowledge (sociological applications)
- 6.6.10 Giddens: structuration theory, late modernity, reflexivity

- 6.6.11 Beck: risk society
- 6.6.12 Bauman: liquid modernity
- 6.6.13 Collins: interaction ritual chains
- 6.6.14 Feminist sociology: intersectionality (Crenshaw), standpoint epistemology
- 6.6.15 Race and racism: systemic racism, Du Bois — double consciousness
- 6.6.16 Research methods: surveys, interviews, ethnography, content analysis, mixed methods
- 6.6.17 Quantitative sociology: statistical methods, regression

6.7 Law — Introduction for Social Scientists

- 6.7.1 What is law? Positivism vs natural law
- 6.7.2 Sources of law: legislation, case law, custom, treaty
- 6.7.3 Common law vs civil law systems
- 6.7.4 Constitutional law: supremacy, fundamental rights
- 6.7.5 Criminal law: elements of crime, defences
- 6.7.6 Civil law: tort, contract, property
- 6.7.7 International law: treaties, customary law, ICJ, ICC
- 6.7.8 Human rights law: ECHR, ICCPR, ICESCR
- 6.7.9 Humanitarian law: Geneva Conventions
- 6.7.10 Jurisprudence: Hart, Dworkin, Rawls — philosophy of law
- 6.7.11 Law and society: legal realism, critical legal studies

★ *Oxford PPE (Philosophy, Politics, Economics), LSE, Harvard Government Department — these are the world standard programmes.*

7.1 Advanced Political Theory

- 7.1.1 Rawls — full study: original position, difference principle, overlapping consensus
- 7.1.2 Nozick's libertarian critique of Rawls
- 7.1.3 Capabilities approach: Sen, Nussbaum — human flourishing
- 7.1.4 Deliberative democracy: Habermas, Cohen, Gutmann and Thompson
- 7.1.5 Agonistic democracy: Mouffe, Laclau
- 7.1.6 Republican political theory: Pettit — non-domination
- 7.1.7 Global justice: Pogge, Beitz, cosmopolitanism
- 7.1.8 Nationalism and global justice
- 7.1.9 Multiculturalism: Kymlicka — minority rights
- 7.1.10 Recognition theory: Honneth — struggles for recognition
- 7.1.11 Critical theory: Frankfurt School — Horkheimer, Adorno, Marcuse
- 7.1.12 Habermas: knowledge and human interests, communicative action
- 7.1.13 Post-structuralist political theory: Derrida, Foucault applied to politics
- 7.1.14 Agamben: homo sacer, state of exception, sovereignty
- 7.1.15 Rancière: disagreement, democracy and equality
- 7.1.16 Mouffe and Laclau: Hegemony and Socialist Strategy
- 7.1.17 Environmental political theory: ecologism, climate justice
- 7.1.18 Feminist political theory: Butler, Pateman — sexual contract
- 7.1.19 Race and political theory: Mills — racial contract
- 7.1.20 Decolonial political theory: Fanon, Wynter, Mignolo

7.2 Advanced International Relations

- 7.2.1 Structural realism debate: offensive vs defensive realism
- 7.2.2 Power transition theory
- 7.2.3 Hegemonic stability theory
- 7.2.4 Regime theory: international regimes and institutions
- 7.2.5 Liberal institutionalism: Keohane — After Hegemony
- 7.2.6 Constructivism: identity, norms, socialisation — Finnemore, Katzenstein
- 7.2.7 Norm diffusion and the norm lifecycle
- 7.2.8 Post-structuralism in IR: Campbell, Der Derian
- 7.2.9 Critical security studies: Booth, Wyn Jones
- 7.2.10 Human security: UNDP framework
- 7.2.11 R2P: norm development and its failure
- 7.2.12 Non-state actors: MNCs, NGOs, terrorist networks
- 7.2.13 Global political economy: Gilpin, Strange, Cox
- 7.2.14 World-systems theory: Wallerstein — core, periphery, semi-periphery
- 7.2.15 China's rise: power transition, BRI, revisionism debate
- 7.2.16 US hegemony: decline debate, liberal international order
- 7.2.17 Nuclear strategy advanced: extended deterrence, nonproliferation
- 7.2.18 Cyber security as international relations issue
- 7.2.19 Climate change and international cooperation: UNFCCC, Paris Agreement
- 7.2.20 Migration as a global governance challenge

7.3 Advanced Economic Theory

- 7.3.1 Advanced microeconomics: general equilibrium, Arrow-Debreu
- 7.3.2 Welfare theorems
- 7.3.3 Game theory advanced: mechanism design, auctions
- 7.3.4 Asymmetric information: adverse selection (Akerlof), moral hazard, signalling (Spence)
- 7.3.5 Advanced macroeconomics: DSGE models
- 7.3.6 Real business cycle theory

- 7.3.7 New Keynesian models: Woodford, Gali
- 7.3.8 Monetary theory: money demand, quantity theory, Friedman
- 7.3.9 Central banking: Taylor rule, inflation targeting, QE
- 7.3.10 Financial economics: asset pricing, CAPM, efficient markets
- 7.3.11 Behavioural finance: Shiller — irrational exuberance
- 7.3.12 Political economy: how politics shapes economic outcomes
- 7.3.13 Institutional economics: North — institutions, path dependence
- 7.3.14 Development economics: Acemoglu-Robinson — Why Nations Fail
- 7.3.15 Economic history: Great Divergence (Pomeranz), industrialisation
- 7.3.16 Advanced econometrics: IV, DiD, RD design, panel data
- 7.3.17 Causal inference: Angrist, Imbens, Rubin — potential outcomes
- 7.3.18 Randomised controlled trials in economics (Banerjee, Duflo)

7.4 Advanced Sociology and Social Theory

- 7.4.1 Social theory: Parsons vs critical theory debate
- 7.4.2 Structuralism and post-structuralism in social science
- 7.4.3 Bourdieu advanced: practice theory, field analysis, Distinction
- 7.4.4 Foucault advanced: governmentality, biopolitics
- 7.4.5 Giddens advanced: structuration, reflexive modernity, The Consequences of Modernity
- 7.4.6 Actor-Network Theory (ANT): Latour, Callon — non-human actors
- 7.4.7 Systems theory: Luhmann — social systems, communication
- 7.4.8 Critical realism: Bhaskar — social structures and mechanisms
- 7.4.9 Feminist theory advanced: intersectionality, embodiment, affect
- 7.4.10 Race theory: critical race theory, whiteness studies
- 7.4.11 Postcolonial sociology: Empire, migration, diaspora
- 7.4.12 Urban sociology: Chicago School, Castells, Harvey — right to the city
- 7.4.13 Economic sociology: embeddedness (Granovetter), markets as social structures
- 7.4.14 Political sociology: state theory, social movements
- 7.4.15 Cultural sociology: Alexander — strong programme
- 7.4.16 Science and Technology Studies (STS): Latour, Jasanoff
- 7.4.17 Advanced research methods: grounded theory, discourse analysis, mixed methods

7.5 Advanced Historical Studies

- 7.5.1 World history — global approaches: Pomeranz, Bayly, Armitage
- 7.5.2 Transnational history
- 7.5.3 Economic history: Maddison project, Piketty on inequality
- 7.5.4 Labour history: Thompson, Hobsbawm
- 7.5.5 Colonial history and empire studies
- 7.5.6 History of capitalism
- 7.5.7 Environmental history
- 7.5.8 Microhistory: Ginzburg — The Cheese and the Worms
- 7.5.9 Psychohistory and history of emotions
- 7.5.10 Comparative history
- 7.5.11 Genocide studies: Lemkin, Raphael — causes and prevention
- 7.5.12 Holocaust historiography: intentionalists vs functionalists
- 7.5.13 Post-colonial historiography: writing back
- 7.5.14 Quantitative history and cliometrics
- 7.5.15 History of nationalism: Hobsbawm, Anderson — imagined communities

★ LSE, Oxford, Cambridge, Sciences Po, Columbia SIPA — MSc dissertations se ye level ki preparation hoti hai. Original thesis zaroori hai.

CHAPTER 8 — PhD / RESEARCH FRONTIER (Level 8 | Oxford · Cambridge · Harvard · LSE)

Ye wo level hai jahan original research hoti hai — new knowledge create karna. Oxford DPhil, Cambridge PhD, Harvard Government/History/Economics/Sociology departments, LSE — sab yahan original contributions ki demand karte hain.

8.1 Doctoral Research Methods

- 8.1.1 Ontology and epistemology in social science: positivism, interpretivism, critical realism
- 8.1.2 Research design: case studies, comparative, large-N, mixed methods
- 8.1.3 Process tracing and causal mechanisms
- 8.1.4 Ethnography and participant observation
- 8.1.5 Elite interviewing and oral history
- 8.1.6 Archival research across multiple countries
- 8.1.7 Advanced quantitative methods: multilevel models, Bayesian analysis
- 8.1.8 Experimental and quasi-experimental designs
- 8.1.9 Discourse analysis and frame analysis
- 8.1.10 Big data and computational social science
- 8.1.11 Writing a PhD thesis: 80,000–100,000 words
- 8.1.12 Viva voce examination

8.2 Research Frontiers in Political Science

- 8.2.1 Democratic erosion and authoritarian consolidation
- 8.2.2 Political polarisation: causes, measurement, consequences
- 8.2.3 Misinformation, disinformation, and democracy
- 8.2.4 AI, surveillance, and political control
- 8.2.5 Political psychology: attitudes, identity, motivated reasoning
- 8.2.6 Experimental political science
- 8.2.7 Political economy of inequality
- 8.2.8 Clientelism and corruption
- 8.2.9 State building and post-conflict politics
- 8.2.10 Populism and democratic backsliding (Levitsky-Ziblatt)
- 8.2.11 Electoral integrity and fraud
- 8.2.12 Social movements and political change
- 8.2.13 Religion and politics
- 8.2.14 Gender and political representation

8.3 Research Frontiers in International Relations

- 8.3.1 Power transition and US-China competition
- 8.3.2 Revisionism in international order
- 8.3.3 Nuclear deterrence in a multipolar world
- 8.3.4 Cyber conflict and international norms
- 8.3.5 Climate security
- 8.3.6 Global health governance: lessons from COVID-19
- 8.3.7 Human rights enforcement: gap between norms and practice
- 8.3.8 Digital sovereignty and internet governance
- 8.3.9 Space as a domain of international competition
- 8.3.10 Non-Western IR theory: Chinese, Indian, African perspectives
- 8.3.11 Decolonising IR

8.4 Research Frontiers in Economics

- 8.4.1 Growth theory: frontier debates on innovation, institutions, geography
- 8.4.2 Inequality: Piketty, Atkinson — causes and policy

- 8.4.3 Automation and the future of work
- 8.4.4 Climate economics: carbon pricing, green transition (Stern, Nordhaus debate)
- 8.4.5 Financial crises: systemic risk, too big to fail
- 8.4.6 Cryptocurrency and central bank digital currencies
- 8.4.7 Platform economics and digital monopolies
- 8.4.8 Universal basic income — theoretical and empirical debates
- 8.4.9 Health economics frontier: pandemics, pharmaceutical pricing
- 8.4.10 Development economics: cash transfers, RCTs (Banerjee-Duflo)

8.5 Research Frontiers in Sociology

- 8.5.1 Social stratification in the 21st century
- 8.5.2 Precarious labour and new class formations
- 8.5.3 Algorithmic discrimination and AI ethics
- 8.5.4 Climate change as social issue: environmental justice
- 8.5.5 Sociology of pandemics
- 8.5.6 New nationalisms and xenophobia
- 8.5.7 Social movements in the digital age: #MeToo, BLM
- 8.5.8 Sociology of religion: secularisation reversed?
- 8.5.9 Global care chains and reproductive labour
- 8.5.10 Sociology of knowledge and post-truth

8.6 Research Frontiers in History

- 8.6.1 History of capitalism and its discontents
- 8.6.2 Decolonial history: restitution, reparations debates
- 8.6.3 History of climate and environment
- 8.6.4 Big history: Harari — Sapiens approach and its critics
- 8.6.5 Pandemic history: lessons across centuries
- 8.6.6 History of the future: expectations and imaginaries
- 8.6.7 Atlantic history and the global slave trade
- 8.6.8 History of human rights
- 8.6.9 Nuclear history: Manhattan Project, arms race archives
- 8.6.10 Oral history and memory in post-conflict societies
- 8.6.11 Transnational and connected histories
- 8.6.12 Microhistory and its theoretical implications

8.7 Key Debates and Grand Questions

- 8.7.1 Is liberal democracy in crisis? — Levitsky, Mounk, Runciman
- 8.7.2 Will China overtake the US? — power transition debate
- 8.7.3 Can capitalism be reformed or must it be replaced?
- 8.7.4 What causes revolutions? — Skocpol, Goldstone, Tilly
- 8.7.5 Why do states fail? — Acemoglu-Robinson vs geography (Diamond)
- 8.7.6 Is there a universal theory of justice?
- 8.7.7 Can global governance work without world government?
- 8.7.8 Does economic growth reduce inequality or worsen it?
- 8.7.9 Is identity politics dividing or enriching democracy?
- 8.7.10 How should history be taught — national narrative or global?

COMPLETE ROADMAP — AT A GLANCE

Chap.	Level	Age	Core Subjects	Topics
1	L1	3–6	Family, community, maps, time, culture	~35
2	L2	6–10	Local history, geography, civics, basic economics	~65

3	L3	10–13	Ancient/medieval history, physical/human geography, politics, economics	~100
4	L4	13–16	GCSE: World/S.Asian history, political science, economics, sociology, geography	~140
5	L5	16–18	A-Level: Modern history, political theory, comparative govt, IR, A-Level economics, sociology	~120
6	L6	18–21	B.A+H.St: Geography, political theory, comparative politics, IR theory, economics, sociology	~155
7	L7	21–23	MSc: Advanced theory, IR, economic theory, social theory, advanced history	~125
8	L8	23+	PhD: Research frontiers in politics, IR, economics, sociology, history	~105
TOTAL				~845+ Topics

Yeh roadmap Oxford PPE (Philosophy, Politics, Economics), Cambridge History, Harvard Government / Economics / Sociology, LSE Politics / IR / Sociology aur Sciences Po ke syllabi par based hai. Community aur family ki samajh se lekar grand theories of history aur political power tak — koi cheez nahi chodi gayi. Khub padho, sochte raho.
